Environmental Policy

April 2018

Hydratight is a world leading engineering, and service company specialising in providing safe, reliable connections for the Oil & Gas, Aero, Industrial and Power Generation industries.

Our experience, comprehensive product range and on-site service teams support our global customers via a network of strategically placed locations and a team of 1200+ employees.

Hydratight will continually review the Company’s environmental aspects and impacts and will endeavour to minimise its impact on the environmental and prevent pollution; taking into account the aims of legislation and other requirements including best practice in conjunction with customers, employees, suppliers, stakeholders and the needs of society. This is a process of continuous improvement and relies primarily on the systematic identification, assessment and control of environmental risk.

Hydratight therefore aims to develop a sense of environmental responsibility within all employees, inform and instruct employees on matters relating to the environment and the contents of the documented management system.

Hydratight will establish, and periodically review environmental objectives and targets including monitoring, measuring and seeking ways to reduce its impact through regular inspections and audits. Hydratight Leadership Team will provide sufficient financial and appropriately skilled human resources to support its activities.

The Leadership Team will use their policy deployment tools to review this policy, the strategy, goals and objectives at an annual management review and commit sufficient resources to maintain its environmental management systems.

This policy statement is available upon request to all interested parties.

Matt Baisley
President - Hydratight
